## INTRODUCTION

---

Research suggests that the most effective people are those who understand themselves, both their strengths and weaknesses, so they can develop strategies to meet the demands of their environment.

An individual's talents and personal skills are a fundamental and integral part of who they are.

In this report we are measuring three dimensions of thought. They are:

- \* Intrinsic - People
- \* Extrinsic - Tasks or things
- \* Systemic - Systems

This report analyzes talents; that is, a person's ability to do things. Is the report 100% true? Yes, no and maybe. As you review your report, please determine which items are job related. This will give you insight as to where to begin development.

## EXTERNAL DESCRIPTION

---

### **Integrated—High Level of Development**

#### **Description**

John judges situations in a balanced, objective way in terms of all three basic perspectives: people, situations, and systems. When he takes action, he can move in and out of any one of the three value perspectives with ease. The integrated pattern indicates that he is not stuck in any one dimension. He can relate to and deal with other people well and maintains healthy, fulfilling relationships naturally. He also has good practical skills and can relate well to tangible things, processes and events. He understands how to deal effectively with ideas, knowledge, and systems. This integrated pattern indicates the world is wide open for him and suggests that he is able to take advantage of any and all opportunities.

#### **Strengths**

John is versatile and stable and adapts well to different types of people and changing situations. It is easy for him to see what he needs to emphasize or focus on, depending on the nature of the situation he is in. If an interpersonal focus is called for, he has the ability to turn on his people skills and relate well to others. If an external or task focus is needed, he has the ability to become an action-oriented achiever who focuses on the work at hand to get things done. If he determines that the situation calls for a systematic focus, he has the ability to turn his attention to learning and gaining more knowledge about the situation. This suggests his greatest talents are flexibility, objectivity and versatility.

#### **Development Opportunities**

John's greatest opportunity for growth is centered in maintaining strong identification with current activities, roles and responsibilities. He enjoys getting involved in new activities; but, if the activities become routine or "easy" for him and he doesn't feel challenged, he may not want to stay involved.

## EXTERNAL DESCRIPTION

---

### **Best Performance Climate**

John will learn, work or perform best in an atmosphere where there is an open exchange of ideas and where feedback is readily available. He also prefers an environment where responsibilities and decisions are shared, and his input and creativity is appreciated and challenged on a regular basis.

### **External Bias Description**

John is someone who relates to the world primarily in terms of established system and order, (e.g., rules, the law). Most of his energies are focused on making things fit into the established system or organization. His somewhat negative view of the tasks dimension reveals that he takes a conscious distance from the practical work process and social convention. His neutral view of the people dimension reflects balanced objectivity toward other persons. He is not too trusting or too distant but strikes a realistic balance when valuing others without getting overly involved to ensure that he makes an objective and accurate decision.

John is good at seeing the big picture or the overall plan of things and how it impacts others much more clearly than he sees the step-by-step process it may take to get the results he wants. He has a talent for comparing facts and ideas and generally makes a fair judgment or reaches a well-founded conclusion concerning what action should be taken in any given situation based on available evidence and careful, critical evaluation. His people skills enable him to ask others the right leading questions, to inquire about things without insulting others, and to deliberately and carefully weigh the pros and cons before expressing his critical evaluation or decision. He tries to ensure that he has sufficient knowledge or experience to decide on the merits, controversy, point at issue, or conflicts before making a decision or forming an authoritative opinion.

## INTERNAL DESCRIPTION

---

### **Role-Authentic—High Level of Development**

#### **Description**

John shows a strong and equally developed focus on who he is and what he can do or is doing. He enjoys being a part of the process of getting things done and identifies with his work and personal roles. In a sense, his identity is his roles and activities. He feels his own worth is equally based on his sense of self and on what he can produce and achieve. He wants to see good results from his work, and that becomes a part of his sense of self. He enjoys being himself, and he is confident, reliable and responsible. He is well aware of his strengths and gets involved in activities or jobs that will best utilize his talents or help to further develop his potential. He will best achieve goals when he is fully engaged.

He under appreciates the systemic, thinking or structural aspects of his life. He is not strict about concepts or images that guide him forward and that shape his future. This means that he probably uses planning in a flexible way to help him focus his time and energy on the role responsibilities in the present. He usually starts new things intuitively and sees the future as a process of discovery, rather than being clear-cut and definite.

#### **Strengths**

John is confident in his abilities to perform and fulfill his roles and responsibilities in life. He has an inner strength that helps him to persevere, even in difficult situations. His general attitude toward change is to adapt to it in practical ways and try to go with the flow of things. He is open to future possibilities and opportunities, and his flexibility about his long-term future should help him to take advantage of the best opportunities. He has a strong sense of self worth and identifies with his primary roles and activities.

#### **Development Opportunities**

John does not have a strong sense of appreciation for systems, plans, rules, and organization as it applies to his own life. He puts less emphasis on defining or talking about himself. He is more concerned about what is happening in the present than with planning a clear and definite future. He is probably eager and enthusiastic about his potential future, but his picture of the future is more vague and uncertain, since his focus is on current roles and responsibilities.

## INTERNAL DESCRIPTION

---

### **Internal Bias Description**

John has a neutral attitude toward sense of self and a positive self direction. The negative bias on role awareness shows that he is not getting the personal sense of fulfillment from his roles he would like to have. The positive bias on self direction shows this fulfillment is soon expected. He has a clear self-image in the area of self direction, and this conviction of self-concept encourages him to express himself frequently and forcefully. He is definite about his vision of the future and works hard on goals with high energy and strong discipline.
